

Public Offer for Designated Assistant Professor of International Collaborative Program in Agricultural Sciences between Nagoya University and Kasetsart University/The University of Western Australia, Graduate School of Bioagricultural Sciences, Nagoya University

1	Title	Open positions for Designated Assistant Professor (Coordinator)
2	Affiliation	Office of International Exchange, Graduate School of Bioagricultural Sciences
3	Recruitment Details	<p>[Selection policy (Background of the recruitment and explanation of the program)]</p> <p>The Graduate School of Bioagricultural Sciences, Nagoya University, has positioned “Bioagricultural Sciences” as a comprehensive academic field that aims to expand the foundation of life science, to make advanced use of biological functions and resources, to create and preserve a symbiotic environment for life, and to develop human society in harmony with the environment through sustainable biological production and technological development of advanced life sciences. Furthermore, our mission is to pursue the truth through creative research activities and to contribute to the formation, accumulation, and inheritance of the world's leading intellectual assets in life science and agriculture.</p> <p>The “International Collaborative Program in Agricultural Sciences between Nagoya University and Kasetsart University” and “International Collaborative Program in Agricultural Sciences between Nagoya University and the University of Western Australia” were established in April 2018 and April 2019, respectively, based on joint research and academic exchange agreements between Nagoya University's Graduate School of Bioagricultural Sciences and Kasetsart University, Thailand, and Western Australia University, Australia, to carry out the Joint Degree Program for the Ph.D. course at the two universities. By educating students in the academic environment, culture, and educational system of the partner university, the two International Collaborative Programs aim to nurture doctoral students who excel in international perspective, planning, academic development, and problem-solving skills, as well as advanced research skills.</p> <p>The Designated Assistant Professor who will be recruited this time holds a doctoral or master's degree or is expected to complete the degree by March 2025, and has research experience in agricultural science or a related field, or experience in academic exchange or student exchange programs with overseas universities. The ideal candidate will be expected to play an active role in the education and management of the Joint Degree Program between the two International Collaborative Programs, contributing to the growth and success of the program as a coordinator. In addition, the candidate will have sufficient English skills to carry out his/her duties and Japanese communication skills, be enthusiastic about the activities of the two International Collaborative Programs, and be a non-Japanese national who can contribute to the further development of the Graduate School of Bioagricultural Sciences.</p> <p>[Job description] (Right after being hired)</p> <ul style="list-style-type: none"> • Contribute to the administration, the student education, and the student support for the International Collaborative Programs in Agricultural Sciences between Nagoya University and Kasetsart University/The University of Western Australia (Coordination services) • Coordinate administrative and development duties in relation to the Graduate School's internationalization programs
